SUMMARY

MCA graduate with expertise in Generative AI, RAG, Full-Stack Development, and AI-powered application development. Skilled in Python, FastAPI, React.js, PostgreSQL, and Google Gemini AI. Built intelligent solutions for SQL analytics, software project assessment, and healthcare assistance.

TECHNICAL SKILLS

- **Programming Languages :** Python, SQL, JavaScript.
- **AI / Generative AI Technologies :** Generative AI, Large Language Models (LLMs), Retrieval-Augmented Generation (RAG), Prompt Engineering, Natural Language Processing (NLP), Semantic Search, Embeddings, AI-Powered Applications
- **Frameworks & Libraries :** FastAPI, React.js, Streamlit, Pandas, NumPy, Scikit-learn, SQLAlchemy, Sentence Transformers
- **Databases & Vector Databases :** PostgreSQL, SQLite, ChromaDB
- **AI Models & Platforms :** Google Gemini AI, Gemini API
- **Web Technologies :** HTML5, CSS3, JavaScript, REST APIs, Material UI
- **Tools & Platforms :** Git, GitHub, Docker, VS Code, Postman

PROJECTS

Project 1 | QueryCraft AI – GenAI Powered Natural Language SQL Analytics Platform
Tech Stack: FastAPI, React.js, PostgreSQL, Google Gemini AI

- Developed an AI-powered platform that converts natural language queries into SQL using Google Gemini AI.
- Implemented automated CSV/Excel ingestion, schema detection, and PostgreSQL table creation.
- Built a full-stack application using FastAPI and React.js for query execution and visualization.

Project 2 | CodeMentor AI – AI-Powered Software Project Assessment Platform
Tech Stack: FastAPI, React.js, Gemini AI, GitHub API

- Developed an AI-powered platform for GitHub repository analysis and project assessment.
- Integrated Gemini AI to provide project summaries, architecture insights, and improvement recommendations.
- Implemented PDF report generation and a responsive full-stack application architecture.

Project 3 | MediAssist AI – RAG-Based Healthcare Assistant
Tech Stack: Python, Streamlit, ChromaDB, Gemini AI

- Developed a RAG-based healthcare assistant using ChromaDB and Gemini AI.
- Implemented semantic search and intelligent document retrieval for medical reports.
- Built an interactive Streamlit dashboard supporting PDF processing and conversational AI assistance.

CERTIFICATIONS & ACHIEVEMENTS

- NPTEL – Introduction to Machine Learning
- Python Training, IIT Bombay (2025)
- PET-26 Paper Presentatio-AI Based Nutrition Planning and Monitoring for Children with Disabilities
- ICTDT-24 Paper Presentation – E-Commerce Technologies
- Brainovision International Student Workshop (2024)

EDUCATION

Master of Computer Applications (MCA)
B.S. Abdur Rahman Crescent Institute of Science and Technology, Chennai
2024 – 2026 | CGPA: 8.8/10
Bachelor of Computer Applications (BCA)
Prince Shri Venkateshwara Arts and Science College, Chennai
2021 – 2024 | Percentage: 85.5%
